

SunScope vs. the "Competition"

Illumination Comparison

Results: SunScope dramatically illuminates more efficiently than its competitors.

Printed in Canada • 003-100

Research conducted by the University of Calgary

Simultaneous comparative measurements of the light throughput of SunScope, Solatube, EZ Light and Sun Tunnel were made in the summer of 1995 by Dr. James A. Love, B. Sc. (Queen's), Master of Environmental Design - Architecture (Calgary), Doctor of Architecture (Michigan), Professional Engineer, Associate Professor of Environmental Design at the University of Calgary.
